

## Toddlers

Happy New Year! I can't believe how fast last year flew by. The month of December was all about winter traditions. We learned about the different holiday's that are celebrated in the month of December, did different crafts and art projects and had a very successful toy drive. During group time the toddlers have been really into doing our ABCs, counting on the abacus, and talking about colors

This month we are focusing on different animals around the worlds, we will be learning the names of animals, what sounds they make, what color they are, are they big or are they small?

Toddlers will work on their fine motor skills making different animal masks and various art projects throughout the month.

We will continue to work on our mathematic skills using the

abacus as well as adding different objects in to count. We will be working on our cognitive skills by doing different activities with shapes, building with magnatiles, ect. We are hoping this month we will have enough

snow to get outside and build snowmen and make snow angels as well as take some inside the classroom to do different science experiments with snow!

### Important notes

Bloom will be closed on January 15th for MLK Day.

Kayla comes back to work on January 22nd!

Please check tadpoles every day for important notes from teachers.

On Friday's please bring home blankets and outdoor gear to be washed, this will help stop the spread of germs!

~Here is to a great year! Robyn and Kayla~
